1/10

FIG. 1

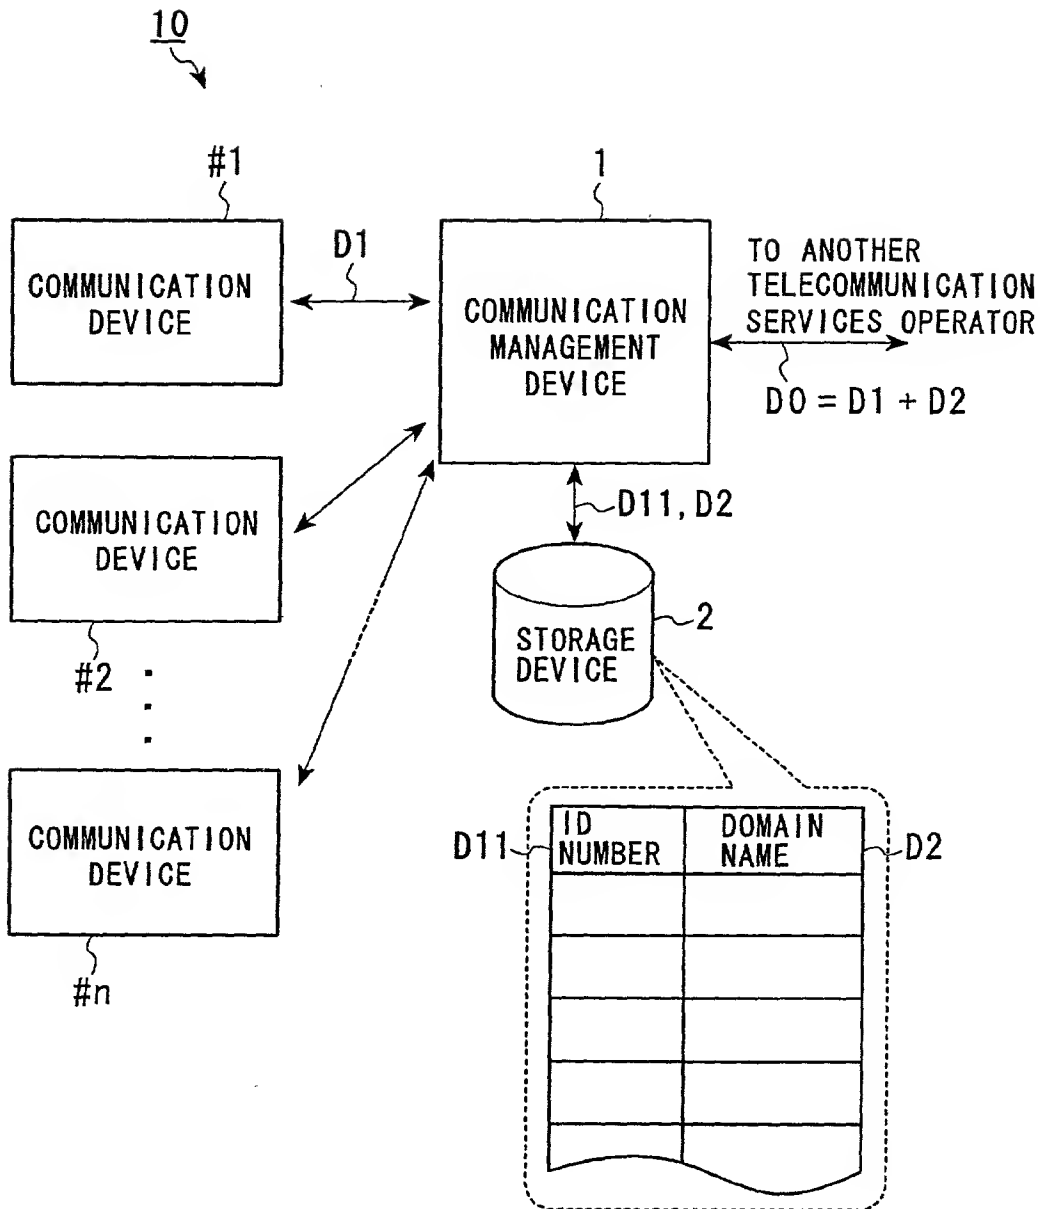

FIG. 2

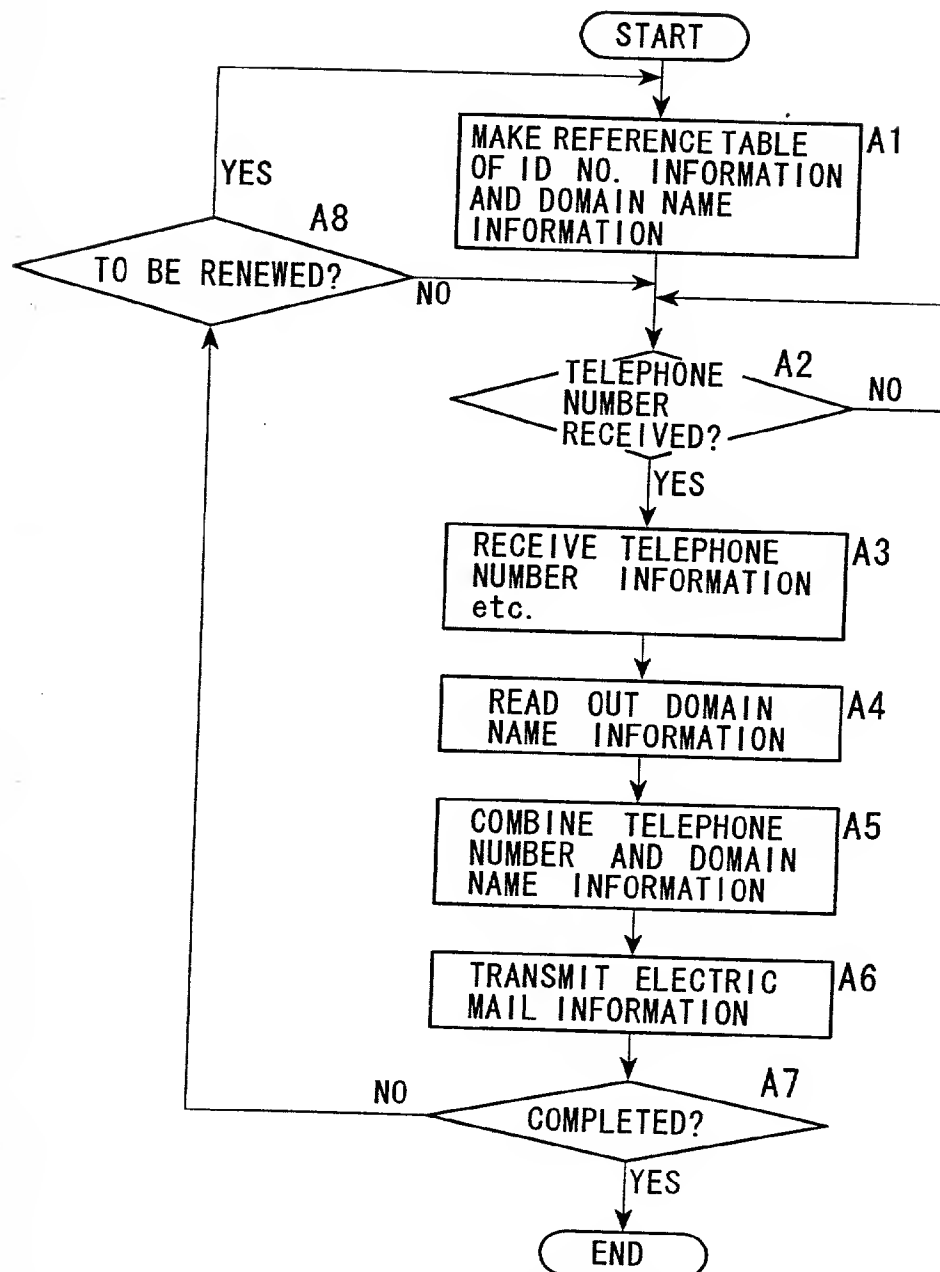

FIG. 3 is a block diagram of a network system 100. The system includes a plurality of mobile devices 3/10, a radio base station 11, a switching station 13, a gateway server 14, a database 12, and an internet 15. The system is managed by telecommunication services operators A, B, and C. The diagram shows the interconnections between these components and how they facilitate communication between the mobile devices and the internet.
